**NOURISHING
SERUM
FOR SKIN
MICROBIOME**
15 ml / 0,51 fl.oz

Misula

FOR EXTERNAL USE ONLY

Nourishing serum designed to deeply hydrate and regenerate the skin. It feeds and increases the non-pathogenic bacterial flora that is normally found on healthy skin, which is useful in helping the skin protect itself and better react against daily aggressions, such as free radicals, oxidative stress, and UV rays. The formula contains an innovative active ingredient, obtained from brewer's yeast, which, together with Ceramides, makes the skin more elastic and toned.

DIRECTIONS: Apply morning and evening to cleansed skin, massaging until thoroughly absorbed. Product may be used alone or before applying a Misula day or night cream. For ideal application and best results, apply serum with the **D2** Thermal-Vibration Face Massaging Device.

Siero dal tocco corposo, studiato per idratare in profondità e rigenerare la cute sottoposta alle aggressioni quotidiane (radicali liberi, stress ossidativo, raggi UV). La formula contiene un innovativo principio attivo, ottenuto dal lievito di birra, che insieme alle Ceramidi rende la cute più elastica e tonica.

Modalità di utilizzo: applicare, mattino e sera, su viso precedentemente deterso, massaggiando fino a completo assorbimento. Può essere utilizzato da solo o prima della crema **M2** o **M3**. Per un'ottimale applicazione si consiglia l'utilizzo del dispositivo **D2** (Thermal-Vibration Face Massaging Device).
